

**Amendments**

Kindly enter the following amendments.

***In the Title***

Please change the title to: "User Interface For Message Access"

***In the Specification***

Insert the following sentence before the first sentence on page 1:

B1 ¶ This application is a continuation of U.S. Patent Application No. 08/989,874, entitled "User Interface For Voice Message Access", filed on December 12, 1997, and which is incorporated herein by reference.--¶

***In the Claims***

Please amend the claims as follows:

same 1  
B2  
CMT 23. (Amended) A device for allowing a user to access messages stored in a plurality of locations using a single interface, comprising:

a [radio] transceiver to communicate [by means of a radio frequency link] with at least one remote storage device adapted to store a first plurality of messages;

memory capacity [coupled to said transceiver and] adapted to store a second plurality of messages;

a processor [coupled to] associated with said transceiver and said memory capacity, said processor adapted to control operation of said transceiver and said memory capacity; and

an interface [coupled to] associated with said processor, said interface adapted to be manipulated by said user and adapted to provide signals to said processor for causing said processor to access one or more messages in said memory capacity and in said at least one
